Re: Conspiracies, Propaganda Top Agenda At Islam Summit, Feb. 16.

Kudos to reporter Joseph Brean and the National Post for being the only major newspaper in the Greater Toronto Area to cover this Islam summit and the ranting of Hamid Mohammadi, cultural attache to the Iranian embassy. Though the turnout may have been small and some major players in the Toronto Muslim community bowed out at the last minute, it is still important to listen to the ravings of this man and a philosophy considered mad by most Western democracies. The next scene in this pathetic drama unfolds with Israel Apartheid Week in March.
